

21st Century Approaches for Evaluating Biological Activity, Exposures, and Risks of Complex Substances

The workshop program is available online. Click [here](#) to view the workshop program. Full workshop agenda with locations and times will be available soon.

Program Highlights:

- **Engaging Sessions.** International speakers and panelists representing governmental agencies, non-governmental organizations, academia, and industry will explore the following topic areas and engage the audience in discussion:
 - **Setting the stage: New technologies**
 - **Screening and biological profiling and more complex risk evaluations**
 - **Improved methods for using read across approaches on new data streams**
 - **Exposure methods to evaluate fate, transport, and dosimetry**
 - **Identifying and overcoming the challenges for implementing the new scientific approaches**
- **Cutting-Edge Research.** New research will be showcased during a poster session on the evening of Wednesday, 19 June 2019.

Hotel Reservations. A hotel block has been reserved at the Grand Hotel Bristol and will be available on a first-come, first-served basis. You must **book your room by 5 May 2019** to receive the discounted workshop room rate. Several room options are available to you. For more information and instructions to [reserve your room](#) at the Grand Hotel Bristol, please visit the [Hotel](#) page of the workshop website.

Registration. To register, please visit the [Registration](#) page of the workshop website. Note that there is **no registration fee** for this workshop.
